Fresh from the greenhouse!

Long-lasting product, preserved by an uninterrupted cold chain.

Continuously hydrated and delivered fresh from our farm to wholesalers in Ontario, Quebec and the Northeastern U.S.

ROSA FLORA LIMITED, NORTH AMERICA’S LARGEST GERBERA FARM
Please accept this complimentary copy of the Canadian Greenhouse Growers’ Directory & Buyers’ Guide. Sourcing products or services from this Directory will put you in touch with floral growers, wholesalers, wholesale distribution centres, suppliers and service companies from coast to coast... At your fingertips!

In this Directory, the following information lists tools to quickly find the right company:

**Regional Listings** - Canadian growers and wholesalers are listed in geographical sections: British Columbia, Prairies, Ontario, Quebec and the Maritimes.

**Export Logo** - Companies exporting to the USA are clearly identified with the dual flag logo.

**Alphabetical Indexes** - Preceding the listing, indexes will help you quickly find company names listed in alphabetical order along with the page numbers of their listing location.

**Product Indexes** - For your convenience, all products are cross-referenced in the back of the Directory according to their product or service category. Each category contains the name of the company and the page number of their listing location.

Please mention this Directory when contacting or purchasing from these companies.

Message from the Minister

Canada’s innovative and dynamic flower industry provides consumers here in Canada and around the world with high-quality products to enhance and beautify their surroundings. What’s more, your industry helps drive Canada’s economy, with $1.5 billion in farmgate sales, employing more than 20,000 Canadians and generating $160 million in exports. I’m proud that the Harper Government is supporting this economic powerhouse through our investment under the AgriMarketing Program to assist Flowers Canada Growers in publishing the 2013 Canadian Greenhouse Growers Directory and Buyers’ Guide.

By showcasing Canadian innovation and entrepreneurship, the Guide is helping to put our legendary Canadian quality on the map here in Canada and around the world.

As well as our work on international market development, the Harper Government continues to work with industry to drive innovation in Canada’s horticulture industry through the $1.5-million Ornamental Horticulture Cluster. This powerful collaboration is delivering solutions for Canadian growers in areas such as climate control for greenhouses. Looking ahead, we will continue to deliver proactive tools to the agriculture and food industry through Growing Forward 2, a federal-provincial-territorial policy framework which will deliver $3 billion over five years in strategic investments around innovation, market development and competitiveness.

Congratulations on this valuable resource for the industry, and I wish everyone a profitable season in 2013.

Agriculture Minister Gerry Ritz, PC, MP

Who is Flowers Canada Growers Inc.?

We are a national association representing floriculture greenhouse producers and industry partners across Canada that proactively addresses common challenges to our industry to the government and implements possible solutions that benefits the industry and the Canadian economy.

What Do We Do?

We run an innovative and successful Minor Use Pesticide Registration Program with 75% of all pesticides registered. We voice national interests to the Federal Government for Canadian Floriculture Growers, with special interest in trade, research, plant health and quarantine.

We provide member benefits throughout the year like access to cross border programs to help facilitate trade to the U.S. and updates with the most current industry news. They also have access to a variety of programs that save you money on a wide range of services valuable to you.

The Association for Ontario Greenhouse Floriculture Producers

Flowers Canada (Ontario) Inc. is the collective voice for Ontario’s largest horticultural crop. FCO Inc. works hard to enhance profitability and competitiveness of Ontario’s floriculture industry by helping to address common issues, challenges and opportunities to retain and enhance Ontario’s pre-eminent position in the floriculture industry in North America.

We Provide member benefits like regular communication with government associations such as CFIA & OMAFRA, as well as effective communication of industry issues to all levels of government. We also provide updates with the most current industry news and what we are working on including: cross border programs; minor use pesticide registration; HR management advice; and industry research. Members also receive access to electrical and natural gas programs as well as insurance programs that can save you money!
The Canadian Ornamental Horticultural Alliance (COHA) is a national not-for-profit organization whose mission is to promote the interest of the ornamental horticulture industry by creating partnerships with the Government of Canada.

Flowers Canada Growers Inc. (FCG), together with the Canadian Nursery Landscape Association (CNLA) and Federation Interdisciplinaire De L'Horticulture Ornementale Du Quebec (FIHOQ) work together to promote the interest of its members by directly engaging officials in communications with the Government of Canada to help overcome obstacles and create opportunities for our industry to grow and prosper.

The Cecil Delworth Foundation
P.O. Box 25022 Guelph, Ontario N1G 4T4
Telephone & Fax: 519-837-8886
www.delworth.ca

The Cecil Delworth Foundation stated mission is...
Industry Research and Education.

The Cecil Delworth Foundation (CDF)’s main focus is to develop and manage funds dedicated to encouraging and supporting research on the culture, marketing, and handling of floriculture crops; and supporting defined floriculture education programs. The foundation aims to provide grants for specific studies and to education institutions for specific purposes of importance to the floriculture industry in all fields—production, wholesale and retail. By initiation its own research program, the industry convincingly demonstrates to the government that it is prepared to do its part. The CDF directly controls the areas and directions in which studies can be quickly undertaken which means that the results come directly to the industry quickly and with great impact.

The Ontario Greenhouse Alliance works for the common interest of vegetable and flower greenhouse farm production in Ontario. TOGA provides information to governments on the importance of greenhouse agriculture to Ontario’s economy. TOGA works to ensure public policies will be supportive of a competitive sector. TOGA’s vision is “to enhance greenhouse agriculture as a sustainable indoor farming ecosystem and to communicate its benefits to consumers.”

The reasons are clear why Ontario-grown cut flowers and potted plants are the preferred choice. From the greenhouse to the store in no time at all, when you support our province’s farmers and pickOntario, you are assured the freshest product available.

What can pickOntario.ca do for YOU?

Growers can co-brand with pickOntario on sleeves, tags and UPC’s. Many people would rather buy local, but cannot identify local products. Increase your sales by educating the consumer! Awareness of your product and business can also be done through the pickOntario website.

Retailers can use posters, aprons, bucket clips, tags, stickers and even advertising through pickOntario.ca.

For more information about your local growers and the products they produce visit us at www.pickOntario.ca or call us at 905-769-1096!
Our Story

Cedarway Floral is a family business established in 1984. Evolving from a small rose production facility, we have grown into one of Canada's largest, most technologically advanced gerbera producers, now covering over 8 acres of growing area. We accomplish this with a team of dedicated growers, packaging personnel and management, who continually look at new methods and technology to produce gerbera as efficiently as possible. We pride ourselves in every aspect of our business. From start to finish, we continue to meet the needs of our customers throughout Canada and the United States, and are happy doing so. An evolving site providing you with detailed information on using biological control in the greenhouse.

A one-stop resource on:
- Pests, Biocontrol Agents and IPM Basics
- A listing of recent scientific literature on biocontrol
- A Grower Forum to ask questions and participate in discussions on biocontrol.

Greenhouseipm.org
TRUSTED NATURAL GAS SUPPLIER TO BC'S GREENHOUSE GROWERS

STRATEGIC PERFORMANCE
Our proactive gas procurement approach manages the twists and turns of the market to consistently outperform utility market pricing and avoid wrong turns.

EXPERIENCE MATTERS
Put our experience to work for you. Our combined 60 years of local market experience will give you clear, proven solutions that work for you.

THE BOTTOM LINE
Our time-tested strategic approach always beats quick and easy promises of ‘lowest price’. That’s our promise.

Half racks, Traditional tall racks, Stackable and Tilted racks.
Wrap-around, Staple-on and Lock-on designs.
We can customize your packaging needs.
NEW COLLAPSIBLE/REUSABLE RACKS NEW

Flexibility - two shelf to ten shelf racks
The frame has superior strength because of wirebound fasteners.
Hinged door for easy loading and unloading
Strong reinforced shelves.

Product/Service: Marsh Canada Limited is proud to be the business insurance and risk advisor of the GreenCHIP Program—uniquely designed for members of Flowers Canada (Ontario). This group business solution is designed specifically for the floricultural industry and is endorsed by the Flowers Canada Board of Directors. The program is uniquely structured to provide comprehensive coverage and competitive rates, which features fewer restrictive policy conditions than standard insurer policies. Other benefits include risk identification, claims advocacy, and risk management tools to help reduce members’ risk exposures and insurance premiums.

As you know, the Canadian Greenhouse Conference is a great place to meet with colleagues, discover new business ideas, explore the latest technologies, and view our industry with fresh eyes and enthusiasm! These days, whether you’re a vendor or an attendee, we know your time is precious. But keeping real connections alive is about more than visiting websites and sending emails and talking on cell phones.

This is your chance to collaborate in person with friends and suppliers and rediscover the resources and products you need.

Check us out online to get the latest news and information on the conference.

www.CanadianGreenhouseConference.com

October 9 & 10, 2013 - ScotiaBank Convention Centre, Niagara Falls

You’re in for some fun now!
