Ottawa, Canada K1A 0C5

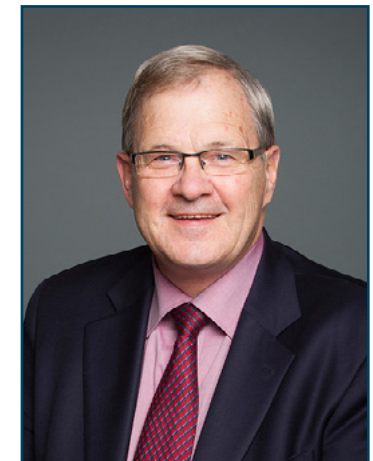

Congratulations to Flowers Canada Growers on another outstanding edition of the *Canadian Greenhouse Growers Directory and Buyers' Guide*. The Government of Canada is proud to support this valuable industry publication, which has helped link growers to new business connections and technologies for more than 20 years.

The Canadian flower industry is a strong driver of our economy, with close to \$2 billion in farmgate revenues and over \$360 million in exports. That's a testament to the hard work of your industry and Flowers Canada Growers. I'm pleased to work with you to grow new opportunities for your industry, focusing on my key priorities for the agriculture and food sector, including innovation, trade and the environment.

As well as supporting this publication under Growing Forward 2, our investment of over \$200,000 under the AgriMarketing program is helping growers showcase Canada's world-class flowers to American customers. I was also proud to join President Andy Kuyvenhoven at the family farm in March, to announce a \$400,000 federal investment for Flowers Canada to help growers take action on the environment. To position Canada's agriculture and food industry to take advantage of future opportunities, I'm now working with the provinces, territories and industry to develop the next framework of agriculture to replace Growing Forward 2 in 2018.

I thank Flowers Canada Growers for your engagement in this dialogue so far. Let's continue working together to keep Canadian floriculture blooming!

2017 CANADIAN GREENHOUSE GROWERS' DIRECTORY & BUYERS' GUIDE

Flowers Canada Growers Inc. is pleased to present the 2017 edition of the Canadian Greenhouse Growers' Directory & Buyers' Guide. This Directory is designed to help you source Canadian flowers, plants, services, and products from a wide array of flower growers, wholesalers, wholesale distribution centres, and service companies located across Canada.

In this 24th edition of the Directory, the tools listed below will help you to find the right service you need faster than ever:

- **Regional Listings** – Canadian growers and wholesalers are listed in geographical sections: British Columbia, Alberta, Ontario, and the Maritimes.

Export Logo – Companies exporting to the USA are clearly identified with the dual flag logo.

- **Alphabetical Indexes** – Preceding the listings, indexes will help you quickly find company names listed in alphabetical order along with the page numbers of their listing location.
- **Visual Product Indexes** – We've done our best to improve the Product Index by cross-referencing all floral products, supplies and services listed by each company in the back of the Directory. For your convenience, each category contains the name of the company supplying that product or service, and the page number of their listing.
- **Tagged Maps** - Beginning on page 46, you will find nine pages of maps showing the geographical location of each of the Canadian growers listed in the directory. *The maps are intended to be used as a guide in locating these listings, and are not claimed to be absolute in their accuracy.*

Please mention this directory when contacting or purchasing from these companies.

Flowers Canada Growers Inc. gratefully acknowledges funding provided by Agriculture and Agri-Food Canada through the AgriMarketing Program and the participants in this directory.

pickOntario

Freshness. Quality. Local.

pickOntario is a marketing initiative aimed to raise awareness, interest and demand for Ontario-grown cut flowers and potted plants on behalf of the flower growers of Ontario.

Over 200 floriculture greenhouses are located in Ontario, which employ more than 7,500 staff, and produce over 1000 different varieties of cut flowers and potted plants. These greenhouses use the latest in technology & growing techniques to ensure their products are delivered fresh to local retail establishments, daily.

What can pickOntario do for you?

In today's market, more and more people are making the conscious choice to buy local. By labeling your pots and sleeves with the pickOntario logo, you are helping consumers identify and choose fresh, local, quality product.

Help us spread the word

Growers can co-brand with pickOntario on their packaging and labels.

Retailers can use pickOntario branded materials in their stores.

VETOQUINOL GREENHOUSES

This is not a laundry room
So why are you still using bleach?

**Virkon®
Greenhouse**

A professional-grade
greenhouse disinfectant
With an excellent safety profile

Bleach is good to keep your t-shirts white. But you are a professional grower. Your operation deserves a safe and efficient, professional-grade disinfectant. **Virkon® Greenhouse**. Optimize disinfection and keep bleach in the laundry room where it belongs.

Virkon® Greenhouse is a broad-spectrum disinfectant for hard surfaces and equipment in greenhouses.

Mastering the Craft of Growing Media

What does that really mean?

For professional growers, that translates with consistent growth, predictable results, reliable supply, and moreover, a trustworthy technical support.
