

Water Sampling

Use a clean water bottle (rinse with solution a few times before filling completely), around 500mL-1000mL is plenty. Keep the sample cold until it's shipped - it's usually better to ship early in the week.

Here are a couple options for where to send water samples for general testing. At any of the labs, ask for a "stormwater package" (which in the lab's language is a "solution/media complete plus suspended solids"). Check the Fats/Oils/Grease (FOG) box only if you are testing outdoor stormwater that might have contamination from vehicle traffic – it's expensive!

1. A&L Canada Laboratories, 2136 Jetstream Road London ON N5V 3P5, [1-519-457-2575](tel:1-519-457-2575) (quote and forms below)
2. SGS AgriFood Labs, 1-503 Imperial Road North Guelph ON N1H 6T9, [1-519-837-1600](tel:1-519-837-1600) (form below)

NOTE: For MOECC sECA sampling, A&L Canada Labs is not fully accredited, and you must find a lab that is ISO 17205 accredited for all parameters listed on your permit. For example, SGS Canada (Lakefield) is fully accredited. A quote will be available by November 2017.

SGS Canada Inc.
185 Concession St.
Lakefield, Ontario, K0L 2H0
t: +1 705 652 2000
f: +1 705 652 6365

Call them first to see if they have a Purolator/courier code you can use - it's usually cheaper with their courier (use plain box, label as 'sample' only).

Quotation

To: PhytoServ
Attn: Dr. Jeanine West
From: Ian McLachlin
Date: November 26, 2015
RE: Quotation for Flowers Canada (Storm water effluent) analysis

The following is a revised Quotation for the associations testing. The test is using our existing greenhouse water package with an addition of total suspended solids. We have priced the Fats, Oil and Grease as a separate option. The main package is priced out as below, but requires a specific fee code (WFCSW) on the submission form to get that package pricing. The FC would stand for Flowers Canada. I will do up a submission form with the two packages listed for ease of sending them in.

Project Parameters requested (A&L Fee code: WFCSW)

- Greenhouse complete water \$30.40 per sample
- Total suspended solids \$12.00 per sample
- Your cost for parameters listed **\$42.40** plus taxes per sample

Optional

Fats, Oil, and Grease \$50.00 per sample

If you have any questions or details not specified please feel free to contact myself directly at ext. 227. Have a good day and we look forward to possibly working with you.

Sincerely;

Ian McLachlin C.C.A.
Vice President
A & L Canada Laboratories East, Inc.
