

BEST MANAGEMENT PRACTICES: OUTDOOR HYDRANGEA

VOLUMES

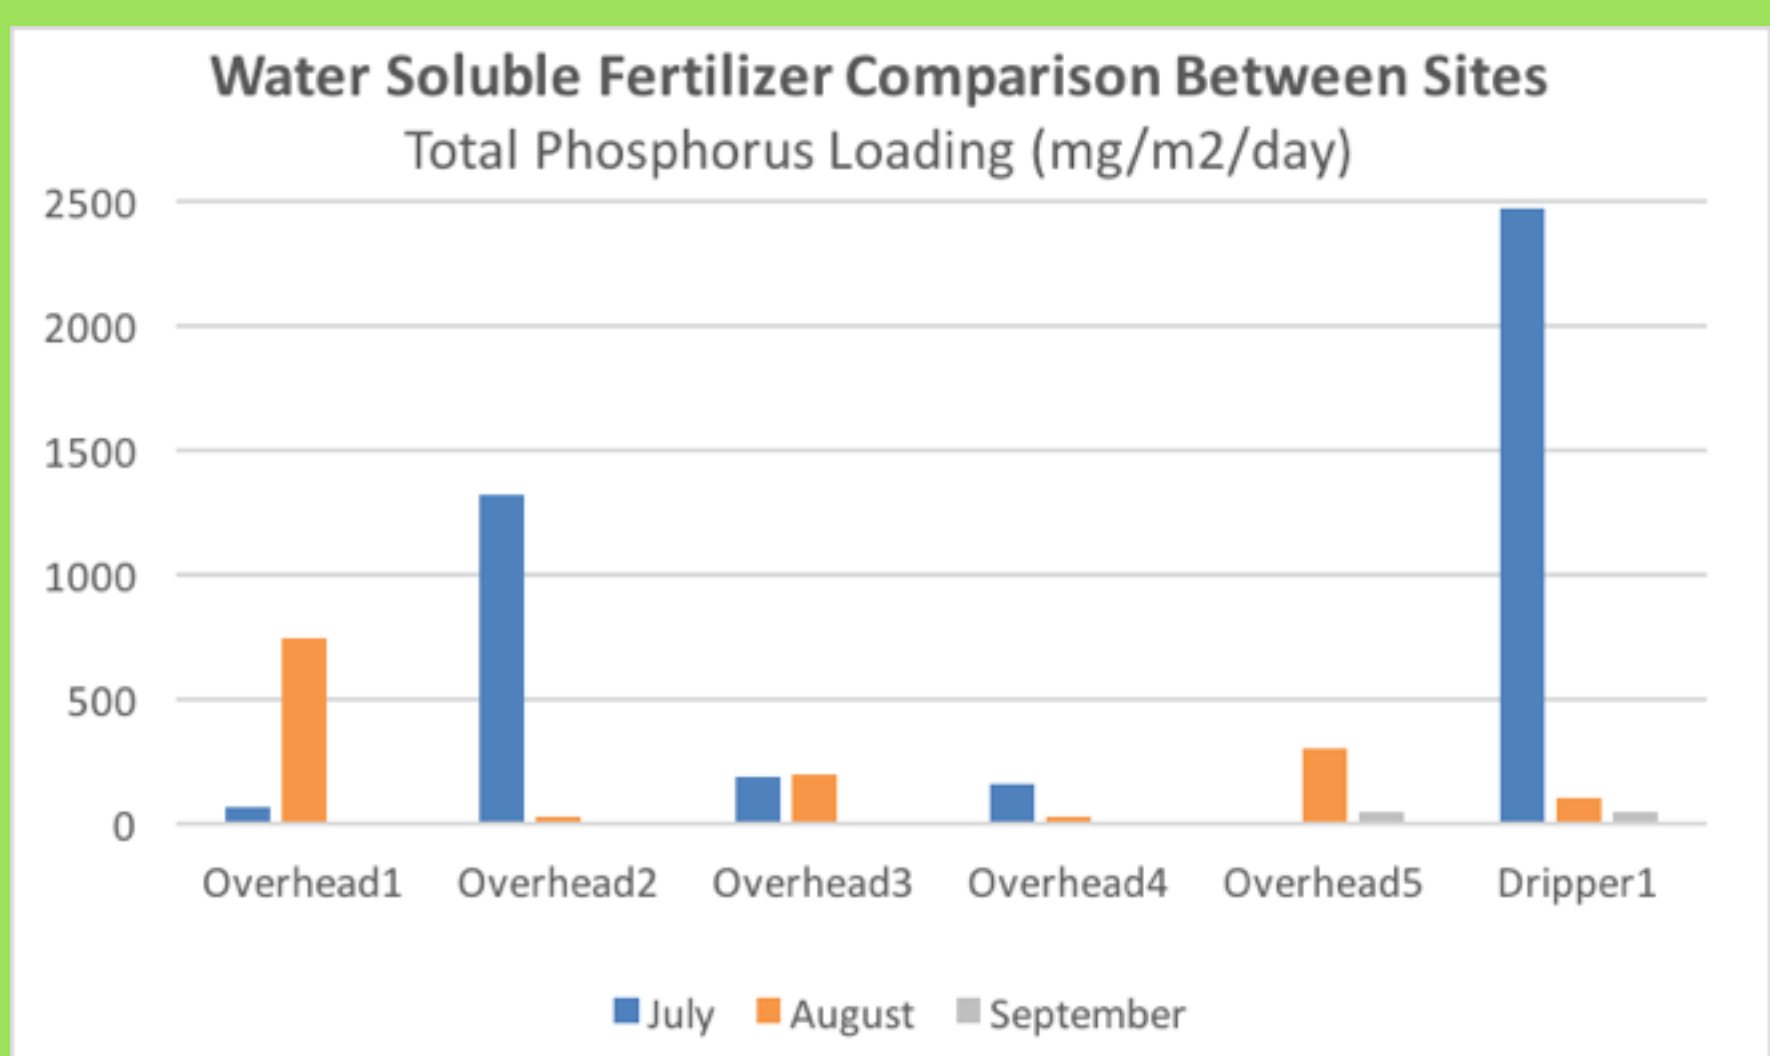

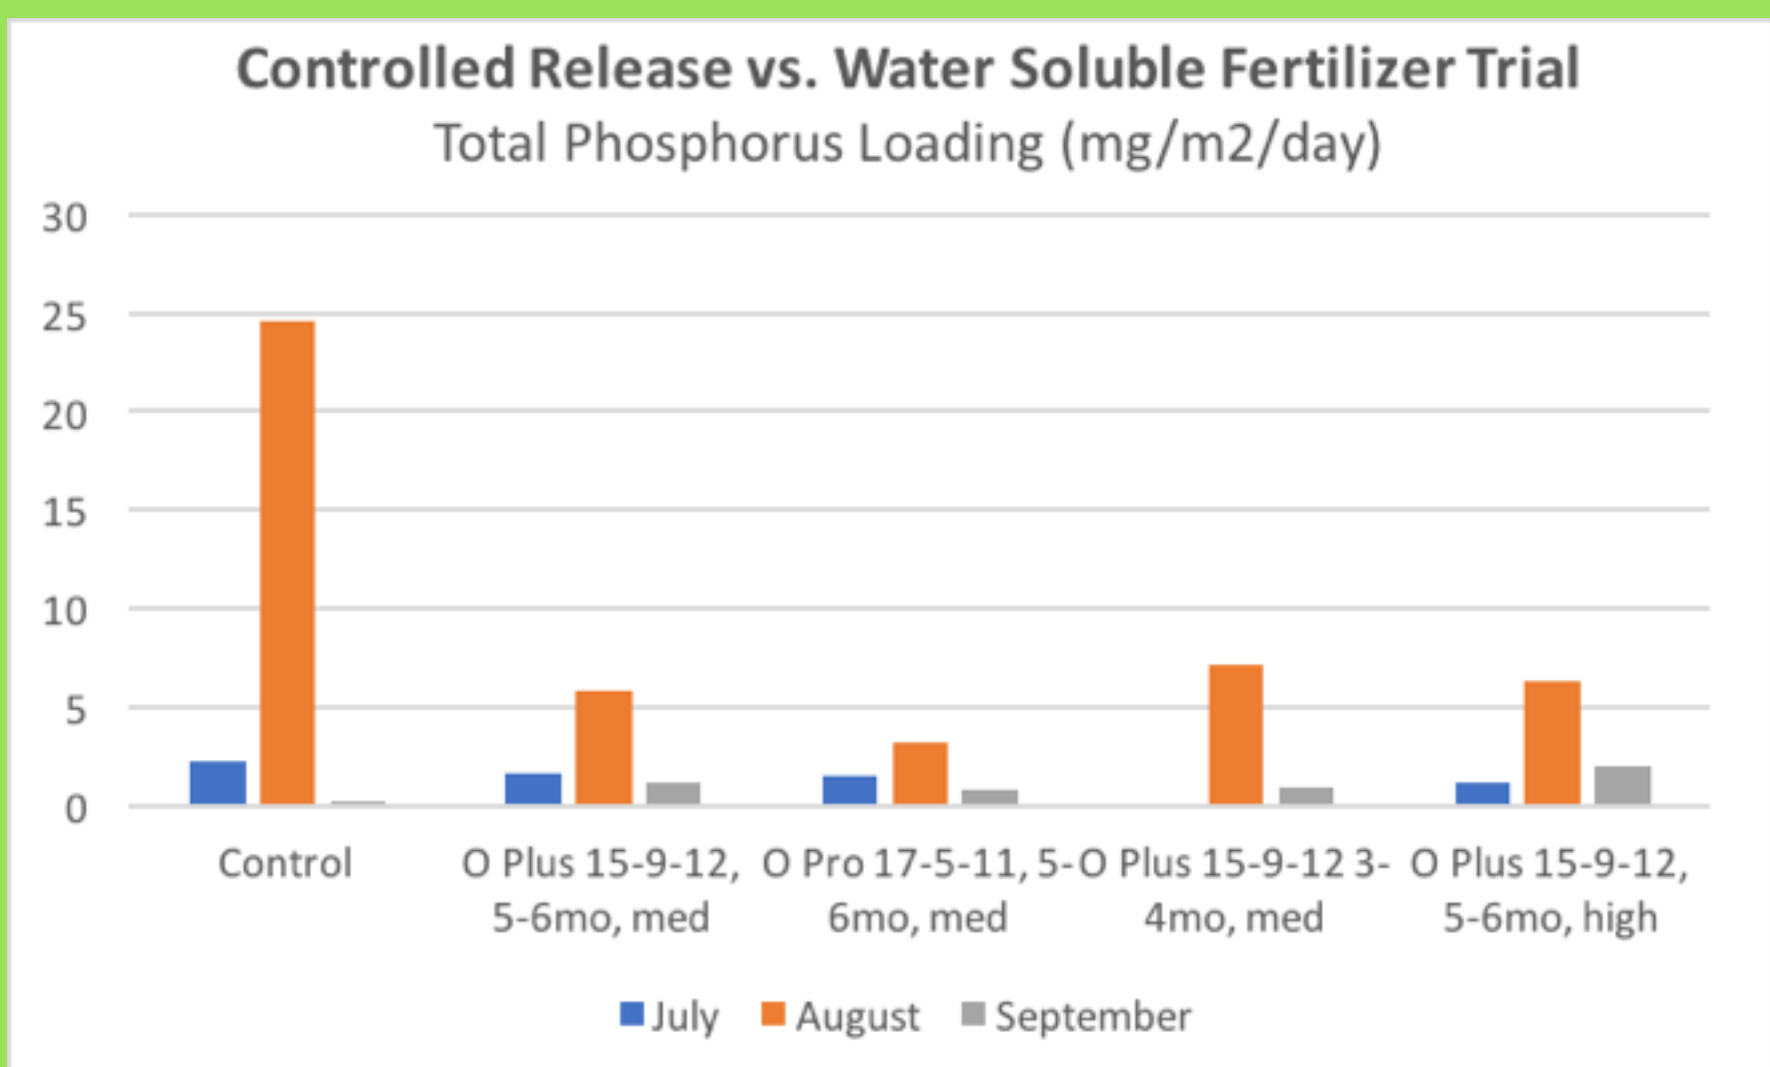

KNOW WHAT YOU APPLY
CHECK POTS MANUALLY
ADJUST FOR RAINFALL
CHECK DISTRIBUTION UNIFORMITY

CRF/WSF

CAN DECREASE LEACHATE LOAD
USING CRF CAN IMPROVE
ENVIRONMENTAL PERFORMANCE

LOADING

APPLIED VOLUMES ARE CRITICAL!
INCREASED P LOADING VERY
POSSIBLE WITH WSF
AVOID WSF UNLESS RECYCLING!

Lots of variability!
WHERE DO YOU FIT?

SUGGESTED BMPs:

OVERHEAD IRRIGATION IS ONLY PRACTICAL METHOD ON SMALLER POTS
CONTROLLED RELEASE FERTILIZER CAN BE USED TO MANAGE NUTRIENT RUNOFF
CONSIDER OPTIONS FOR CAPTURING AND RECYCLING RUNOFF
