

March 1, 2019

2019 greenhouse IPM

achieving sustainable biocontrol

\$60 +tax
Lunch included

HOST
MICHAEL SHORT

Bring insect identification and bio control expertise from over 20k scouting visits in all major greenhouse crops grown in Ontario.

GUEST SPEAKER
Dr. SARAH JANDRICIC

Has been the Greenhouse Floriculture IPM Specialist for the Ontario Ministry of Agriculture, Food and Rural Affairs (OMAFRA) since 2015. She is responsible for IPM of both insect pests and plant diseases. Sarah has studied IPM in floriculture for over 17 years, including at the University of Guelph, Cornell University, North Carolina State University and as Director of Research for an IPM consulting company. Sarah runs the ONFloriculture blog, and aids greenhouse growers in conducting on-farm trials to help solve critical issues in their operations. Sarah is stationed at Vineland, Ontario and can be reached at 905-562-4141 Ext. 106 or sarah.jandricic@ontario.ca.

TIME: 8:30 a.m. to 2:00 p.m.

LOCATION: Rittenhouse Hall, Province of Ontario Bldg, Vineland Research and Innovation Centre, Vineland Station, ON
