VETOQUINOL GREENHOUSES

This is not a laundry room
So why are you still using bleach?

**Virkon™
Greenhouse**

A professional-grade
greenhouse disinfectant
with an excellent safety profile.

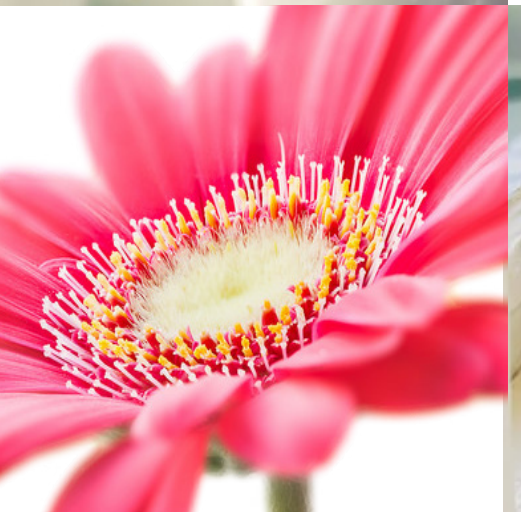

Bleach is good to keep your t-shirts white. But you are a professional grower. Your business deserves a safe and efficient, professional-grade disinfectant. **Virkon™ Greenhouse**. Optimize disinfection and keep bleach in the laundry room where it belongs.

Virkon™ Greenhouse is a broad-spectrum disinfectant
for hard surfaces and equipment in greenhouses.

TAKING STANDARDIZATION OF GREENHOUSE COGENERATION TO THE NEXT LEVEL

When in 2013 **Gruppo AB**, together with a few former Jenbacher employees, created AB Greenhouse Power Netherlands (ABGPN), it was with a vision of taking cogeneration in the greenhouse sector to a whole new level. Over a period of more than 2 decades, Jenbacher in the Netherlands had continually updated and optimized their greenhouse cogeneration plants resulting in more than 2,000 MW of Jenbacher CHP installations deployed

in greenhouses across the country. The vast majority of these projects are operating grid parallel and have the flexibility to power grow lights or to export power into the grid when power prices were high, utilize all the heat recovered for system efficiencies greater than 93%, and utilize the CO₂ present in engine exhaust for enhancing plant growth. For these greenhouse projects, a high level of standardization was applied, covering the entire installation including heat recovery equipment, sound enclosure, ventilation systems, exhaust systems, controls, greenhouse integration, etc., allowing for successfully delivering as many as 180 installations per year. When applying the same project design and implementation methods to international projects, it became clear that minimizing work to be performed on site could significantly improve the ability to control project schedules and construction costs. This is where **Gruppo AB** came in. As a company with a decades long experience

of working exclusively with Jenbacher gas engines at the heart of their best in class, containerized CHP plants, **Gruppo AB** was the perfect organization to take greenhouse cogeneration to the next level. Together with the AB Greenhouse Center of Excellence, the team at AB set out to develop a greenhouse specific version of their containerized CHP plants and the result of this design effort has been astonishing. AB has created a system that is essentially a combination of 3 modules (containerized generator set, exhaust cleaning, and heat recovery). During the manufacturing process the entire CHP plant will be assembled at the AB factory, before taking it apart and shipping it to the end destination. Once arrived on site, the complete CHP plant can be reassembled in as little as 5 days, providing greenhouse cogeneration customers with the following connection points:

- Gas inlet at container wall
- Electricity at generator terminals
- Hot water at container wall
- CO₂ at exhaust stack

Timing of this product development has been perfect.

Global greenhouse construction has increased significantly in recent years and many sites that either require power that cannot be provided by the local utility, or sites that are looking for lowering their energy costs have started to utilize the CHP plants offered by **Gruppo AB**. One market that has benefitted significantly from these developments is Canada. In Ontario, after years of trying to develop a program to facilitate implementation of greenhouse CHP plants, finally in 2014 a CHP standard offer program (CHPSOP) was introduced that made it possible for greenhouses to finally justify the installation of cogeneration. In the years following as many as 7 greenhouses managed to secure a contract with the IESO and proceed with construction of their cogeneration projects. Testament to the success of the Gruppo AB greenhouse standardization efforts, all 7 projects, ranging in size from 2.7 MW to 13.3 MW, are utilizing the Gruppo AB technology for their projects. With 7 CHPSOP projects in operation, this has been a tremendous success for the AB organization and their technology that has been developed specifically for this most challenging application.

Minister
of Agriculture and
Agri-Food

Ministre
de l'Agriculture et de
l'Agroalimentaire

Ottawa, Canada K1A 0C5

Message from the Minister:

Like many Canadians, I look to flowers and plants to lift my spirits and connect with friends and family when we can't be together. We all appreciate the beauty they bring to our homes, communities, and businesses. They are especially meaningful in light of the COVID-19 pandemic. That's why I congratulate Flowers Canada Growers on the 2021 Greenhouse Growers' Directory and Buyers Guide, which continues to help your industry grow your businesses and drive our economy. With funding from our AgriMarketing program, this important resource gives buyers the information and tools they need to make those critical sales.

This year, flower and plant producers have shown more than ever their capacity for resilience and adaptability. The Government of Canada has taken a number of important steps to support your sector. When the pandemic broke, we made key investments to help your industry meet your labour needs, facilitating the safe arrival of 85 percent of workers compared to 2019. Measures included almost \$90 million to help farm employers with quarantine expenses. We also invested \$35 million to help Canadian producers upgrade facilities and equipment to keep their workers safe, while allowing flower growers to defer loans under the Advance Payments Program. For the longer term, funding in greenhouse innovation, including lighting and pest control, and the renewed Canada-U.S.-Mexico Agreement will help Canada's flower industry fuel the relaunch of our economy and capture the exciting growth opportunities that lie ahead.

Our government will continue to work with you to keep Canada's horticulture sector blooming!

A handwritten signature in blue ink, reading "M. Bibeau".

The Honourable Marie-Claude Bibeau, PC, MP
Minister of Agriculture and Agri-Food

Canada

CANADIAN GREENHOUSE GROWERS' DIRECTORY AND BUYERS' GUIDE

Flowers Canada Growers Inc. is pleased to present the 2021 edition of the Canadian Greenhouse Growers' Directory & Buyers' Guide. This Directory is designed to help you source Canadian flowers, plants, services, and products from a wide array of flower growers, wholesalers, wholesale distribution centres, and service companies located across Canada.

In this 28th edition of the Directory, the tools listed below will help you to find the right service you need faster than ever.

- **Regional Listings** – Canadian growers and wholesalers are listed in geographical sections: British Columbia, Ontario, and the Maritimes.

Export Logo – Companies exporting to the USA are clearly identified with the dual flag logo.

- **Alphabetical Indexes** – Preceding the listings, indexes will help you quickly find company names listed in alphabetical order along with the page numbers of their listing location.
- **Visual Product Indexes** – We've done our best to improve the Product Index by cross-referencing all floral products, supplies and services listed by each company in the back of the Directory. For your convenience, each category contains the name of the company supplying that product or service, their province, and the page number of their listing.
- **Tagged Maps** - Beginning on page 44, you will find nine pages of maps showing the geographical location of each of the Canadian growers listed in the directory. *The maps are intended to be used as a guide in locating these listings, and are not claimed to be absolute in their accuracy.*

Flowers Canada Growers Inc. gratefully acknowledges the funding support of Agriculture and Agri-Food Canada through the Canadian Agricultural Partnership and the participants in this directory.

©2021 All Rights Reserved. Flowers Canada Growers Inc. cannot and does not guarantee the correctness of all information provided, nor the complete absence of errors or omissions, hence no responsibility can be taken nor is assumed.

COHA-ACHO's vision is to represent Canada's vibrant and flourishing ornamental horticulture value chain at the national level passionately and effectively.

www.coha-acho.ca

COHA-ACHO's mission is:

- To ensure that governments are well informed about the economic and environmental importance of ornamental horticulture as an integral part of Canadian agriculture.
- To obtain government recognition for the value that our plant products and services provide as solutions for society.
- To lead research and innovation for our sector in collaboration with government.

COHA is a strategic alliance of three organizations:

- The Canadian Nursery Landscape Association
- Flowers Canada Growers Inc.
- Québec Vert

The Ontario Greenhouse Alliance (TOGA) works for the common interests of vegetable and floral greenhouse farmers in Ontario.

By providing current information and analysis on sector trends and issues, TOGA contributes to the development of public policy in collaboration with governments.

TOGA seeks outcomes that enable Ontario greenhouse growers to be globally competitive and profitable while contributing to a healthy society.

Did you know? The Ontario greenhouse sector:

- Contributes over \$2.6 billion to Ontario's economy each year
- Employs over 20,000 workers in greenhouses and associated packing facilities
- Generates exports exceeding \$1 billion

PRODUCT/SERVICE: Gateway to the highest quality of cut flowers and potted plants since 1972. Ontario Flower Growers Cooperative is a leader in the development of the floral industry in Ontario, connecting growers with wholesale and retail customers. We facilitate the purchase of quality floral product from growers across Ontario including a large selection of import merchandise from around the world. We offer multiple ways of convenient, efficient and productive buying, including: daily auctions accessible on-site or live on-line, website purchasing, order desk and pre-booking, greenhouse direct sales - order straight from the grower and pick-up on-site. Talk to us about your specific needs and let us design the right purchasing program for your business.

YEAR ESTABLISHED: 2009

GREENHOUSE SIZE: 165,000 sq.ft., 15,329 sq. meters

PRODUCT/SERVICE: Orchid Greens is most well known for our premium grade Phalaenopsis Orchids. We stand out with regards to large bloom sizes, larger bloom counts, as well as the always changing unique variety of colours made available! Our top two best sellers are the Waterfall Orchids, which only the biggest and best plants are selected for the hand crafted bending procedure to create this masterpiece. Our Waterfalls come in all different natural, non-dyed colours, thus returning in bloom the same beautiful colour year after year! The other is our 4" Delight Orchids, the perfect grab-and-go item for impulse purchases in your stores. Another special service we offer is our Orchid Arrangements and Orchid Dish Gardens, please feel free to visit our website for all the different planters we offer. Aside from the Phalaenopsis Orchids, we also grow species Orchids such as Oncidiums, Dendrobiums, Epidendrums, etc. that are more seasonal. Our products are readily available to be shipped into the states as well.

BEING A MEMBER HAS ITS BENEFITS!

FCG WORKS FOR YOU:

- ❁ Representing over **325** growers, generating over **\$1.5 Billion** in farm gate sales
- ❁ Collaboratively working with all levels of government to establish partnerships and create a national voice for floriculture
- ❁ Comprehensive coverage available on greenhouse, truck fleet and automobile insurance offered through the Marsh Canada Commercial Insurance Program
- ❁ Continually bringing new (and retaining existing) pest management tools to ornamental farmers
- ❁ Helping address export challenges by working closely with both grower members and the Canadian Food Inspection Agency
- ❁ Funding floriculture research aimed at helping flower growers
- ❁ Helping growers access government programs and funds to benefit their business
- ❁ Offering a competitive health insurance program available to growers and employees through People Corporation
- ❁ **Thousands of dollars** available in savings through industry partnerships

The membership that keeps on growing

Flowers Canada Growers Inc.'s mission is to build partnerships and relationships that lead to a regulatory landscape enabling business success.

PRODUCT/SERVICE: Argus provides advanced climate control systems that are customized to each grower's requirements and are adaptable to their changing needs, enabling them to operate their facilities exactly the way they want. With over thirty years of innovation in controls technology, Argus systems are used throughout the world to control complex facilities for horticulture and agriculture and biotechnology research. Our control solutions feature comprehensive real-time monitoring and historical trend analysis designed to provide growers with a full understanding of their facility and growth processes. We provide intuitive and intelligent control of climates, irrigation and nutrients that help optimize plant production. With a modular component design that ensures unlimited expansion options, clients never outgrow their Argus system. In addition to using only greenhouse hardened components proven for long-life and trouble free operation, our organization is configured to provide full service support and rapid response times - whenever it's needed.

PRODUCT/SERVICE: Complete control over your crop growing processes. Hoogendoorn started as a small technical installation company and has grown into an international automation company active worldwide. In 1974, Hoogendoorn was the first in the world to bring a digital horticultural computer to market. Since then, Hoogendoorn has produced the most advanced process computers and cultivation and business registration systems that contribute to a sustainable approach to water climate and energy. With a partner network distributed across each continent, our trained specialists support all customers with knowledgeable product recommendations, training and the provision of service. Together with global partners, Hoogendoorn delivers sustainable automation solutions that seamlessly coordinate all processes and systems in your horticultural organization. The modular software ensures that the available resources such as natural gas, fertilizers, and water are used as efficiently as possible. With this, Hoogendoorn helps its clients to minimize (energy) costs and CO2 emissions and to maximize crop profitability.

ASSOCIATE MEMBERSHIP

**Join Flowers Canada Growers as an
Associate Member and**

Promote your Business

to over 325 Canadian floral greenhouse growers!

Flowers Canada Growers is the national trade association of the Canadian floral industry. Our members across Canada include greenhouse growers, distributors and importers/exporters all dealing with cut flowers, potted plants, bedding plants, cut greens and specialty suppliers and services to the industry.

what membership can mean for you...

1. A customized company profile listed on the Flowers Canada Growers (FCG) website.
2. Your company logo on our home page of the FCG website.
3. The ability to have one on one conversations with greenhouse owners.
4. Regular logo listing in our FCO and FCG monthly newsletters.
5. A special introduction of your company will be sent to all the FCG grower members.
6. The ability to distribute your company information/updates to all the FCG members. (based on approval).
7. Receive regular industry information/updates relevant to greenhouse growers and suppliers.
8. The option to present or sponsor awards to our members.
9. Your company logo will be included in our FCO and FCG Annual Report.
10. An invitation to attend and represent your company at a variety of events.

The Associate Membership
that keeps on growing!

ONfloriculture

www.onfloriculture.com

With contributions made by OMAFRA specialists, the ONfloriculture blog is an excellent resource for Ontario greenhouse floriculture growers, providing timely, technical information to produce the best crops.

ONfloriculture covers information on:

- Integrated management of insects and diseases
- News on the latest research and pest issues
- Production issues and solutions
- Industry events
- Links to other resources

Greenhouseipm.org

An evolving site providing you with detailed information on using biological control in the greenhouse.

A one-stop resource on:

- Pests, Biocontrol Agents and IPM Basics
- A listing of recent scientific literature on biocontrol
- A Grower Forum to ask questions and participate in discussions on biocontrol.

Ontario 

OFG Market Place is the shopping centre where florists, wedding and event planners will find product of choice in smaller quantities. OFG Market Place supplies a variety of local and imported quality cut flowers and potted plants by the bunch or by the pot, including a selection of florist supplies.

Ontario Flower Growers

Co-Operative Ltd.

Gateway to the highest quality cut flowers and potted plants since 1972.

Ontario Flower Growers Co-Operative is a leader in the development of the floral industry in Ontario, connecting growers with wholesale and retail customers.

We facilitate the purchase of quality cut flowers and potted plants from growers across Ontario including a large selection of import product from around the world.

PROGRAMS TO MAKE BUYING CONVENIENT, EFFICIENT, AND PRODUCTIVE

1330 Sandhill Dr, Ancaster ON L9G 4V5

www.hydrogardens.ca

A detailed line-art illustration in black and green. It features a large, multi-petaled flower at the top center. To its left is a DNA double helix. Below the flower is a network of nodes connected by lines. In the center, there's a tomato and a cucumber. To the right, there's a leafy plant. At the bottom, there's a brown paper bag with the text 'SEEDS OF CHANGE' and 'REFLECTING THE GROWTH & EVER-EVOLVING LANDSCAPE OF THE GREENHOUSE INDUSTRY'. The bag is tilted and appears to be filled with seeds and plants. The background is white with green gears and a green DNA helix on the right side.

SEEDS OF CHANGE

REFLECTING THE GROWTH & EVER-EVOLVING
LANDSCAPE OF THE GREENHOUSE INDUSTRY

OCT 6&7
2021

Canada's foremost event and
connection point for commercial
greenhouse & nursery growers,
suppliers and research partners.
